

THE DAY'S EVENTS IN WESTERLY

Town Council Hears Norwich-Westerly Traction Company's Four Plans for Terminal—Will of Horace Vose Probat—Burial of Michael Kirby—Peddler Thrown From Wagon.

The Westerly town council held a special meeting Tuesday evening and a public hearing on the matter of relocating the terminals of the lines of the Norwich and Westerly Traction Company, from Dixon square to some other point of mutual advantage to the public and the serving company. Members of the council have complained of the congested condition in Dixon square occasioned by the standing of trolley cars to permit passage at that point and the traction company conceded it was a disadvantage to successful operation, therefore conceding with the council in the matter of relieving the congestion. The council appointed a committee to confer with the traction company and to submit plans for the proposed change were submitted at the regular meeting of the town council the first Monday in January. The council decided upon a public hearing before taking definite action, the traction company agreed that meeting taking place at a proposed terminal at the railway station as the logical location.

At the hearing Tuesday evening four plans were submitted to relieve the congestion in Dixon square and to locate the cars to pass and repass uninterruptedly. One plan provided for the double tracking of High and Canal streets, submitted by the traction company, the objection being the narrowness of High street in the vicinity of the Windsor house.

The traction company submitted another plan that provided for a siding three hundred feet in length in Railroad avenue, in front of the railway station, with the addition of a spur track down Canal street to a point directly under the railroad bridge. This plan provided for the stretch of track to be located within a few feet of the curb line. The committee offered a supplemental plan that the tracks be laid near the center of the avenue with diamond switch, so that there would be a driveway on each side of the tracks.

The committee also submitted a plan for a turnout in Canal street from the Murphy building to the Harlan house, a distance of nearly two hundred feet. The traction company's objection to this plan was that it was not sufficient as a turnout in that vicinity less than 300 feet in length would be inadequate for the service. All the members of the council were present except Councilman Saunders. The first business was action on the transfer of the liquor license from Canal street to 56 Pierce street. Attorney John J. Dunn advocated the transfer and there was no opposition. President Langworthy announced that the hearing was open for discussion of the local trolley situation. President Robert N. Perkins of the Norwich and Westerly Traction company stated that the company had made no formal petition for change in location. He, however, favored location for the benefit of all concerned, at the railway station. Under the present system, with terminal in Dixon square, connections cannot be made with the railroad lines. He believed the railway station the logical and proper place for the terminal, in fact it was a natural location, where no traffic could not be inconvenient. Frederick C. Buffum asked what length of turnout would be required in Railroad avenue and Mr. Perkins said one sufficient to accommodate four cars would meet present requirements. Mr. Buffum, speaking for the Board of Trade, said the chief objection to the siding in Railroad avenue, was that freight business would be hampered in front of the station. He said it would be a mar to the general health of the station to have cars in the front. He suggested a loop through Friendship street, which he said would obviate this objectionable feature. This would do away with the use of Railroad avenue, by entering Friendship street from Dixon square and connected to the handling of milk cans in front of the station. The steam railroad company might object to the proposed loop, but he believed it could be acquired in time. He said the town had

IN TORTURE WITH TERRIBLE ERUPTION

Horribly itching Pimples. Scratched Till Bled. Thoroughly Miserable. Used Cuticura Soap and Ointment. Trouble Disappeared.

Watkins Park, Edgewater-on-the-Hudson, N. J.—"About two years ago I had a terrible breaking out of horrid itching pimples all over the stomach and upper part of my legs. I was in torture and scratching till I bled and could only sleep fitfully at night and was so glad to see the day dawn. I was tormented and miserable. The reddish pimples had got a head on them like small pox. I rubbed them with a rough cloth, they itched so. They bled together and made about the size of a nickel and scabbed over. My clothing irritated the sores so that I put a damp handkerchief next to them. Some said it was the itch and some said it was the scab. I took several treatments but got no relief. I was suffering for over six weeks when I began with the Cuticura Soap and Ointment. I washed myself with Cuticura Soap and hot water every night and when I had dried myself I rubbed the Cuticura Ointment thoroughly in and to my astonishment by the end of a week the whole trouble had disappeared and the old skin brushed off. I have not had a sign of a spot on my body since." (Signed) C. W. Charles, Nov. 9, 1912.

Cuticura Soap 25c, and Cuticura Ointment 50c, are sold everywhere. Liberal sample of each mailed free, with 22c. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Get Men who wash with Cuticura Soap and Ointment will find it best for skin and scalp.
